

Discover SCUBA Diving

Try a PADI DSD Experience!

Have you been wondering what it's like to breathe underwater? With a PADI Discover SCUBA Diving Experience, you can try SCUBA:

- In a controlled, safe environment
- In small groups with our PADI Professionals
- In a warm, heated pool!

A PADI Discover Scuba Diving experience is a great way to find out what SCUBA diving is really like before you take a full SCUBA certification course.

What Will Happen?

Your instructor will spend a little time with you to explain the basic principles of scuba diving and give you an overview of your dive equipment, which is supplied by the dive centre.

Once you feel comfortable, your instructor will take you in the pool to help you learn basic SCUBA skills. Then, if you like, you can go deeper in the pool, practice your underwater buoyancy, and have a good time! Most Discover SCUBA Diving experiences (including theory and pool) last about an hour or two.

The skills you learn during your Discover SCUBA Diving experience may be credited toward the full PADI Open Water Diver certification.

The Gear You Will Use:

All the equipment is included for your experience. A mask, snorkel, fins and buoyancy compensating jacket, together with a cylinder, regulator and instruments to monitor depth and air supply.

Pre-requisites:

Age 10 years+
Completed medical form and participant record (downloadable on our website or in store).

Cost: £50

Dates Available:

We have regular sessions both during the week and at weekends. Call, email, or visit the shop to find out when our next session is!
